

Inclusion Consultation Services

Are you or your loved one looking at registering for a program with Recreation and Parks and need accommodations to participate? If so, we encourage you to contact the Therapeutic Recreation Services section and schedule an appointment to discuss your desires and needs. Let our specialized staff help you choose the program most suited for you and your personal goals and needs.

Consultation services are available for any Recreation and Parks program; however, are highly encouraged for summer camp options. Each program and camp offer unique advantages and we can help you pick the program that would by its nature and structure accommodate the personal needs the best!

All individuals requesting inclusion services will be asked to complete a participant profile. The information gained from this form and your personal consultation will be used to provide the most successful inclusive experience possible.

To schedule a meeting contact:
