

January 28, 1958

The County Commissioners with their attorney were in general session today.

Mrs. Dorothy Ridgell of Ridge, Md., who has the care of several former inmates from the Alms House was in about the complaint made by the Baltimore office of Welfare. Requirements for a nursing home were central heat, central hall with access to each room, individuals in separate rooms etc. After talking the matter over with Dr. Houser Mrs. Ridgell does not qualify as a Nursing Home but is acceptable as a boarding house.

Fr. McGarry spoke for Mrs. Ridgell advising the Commissioners of the "home" she kept for the men at her house, and the wonderful care she took of them. The Commissioners are satisfied that she is satisfactory for this work. For Bd and lodging these men pay \$50.00 with \$4.00 allowance for clothing all received from Welfare. If a person is ill and needs constant care they get \$105.50
