Republicans Urge Look at the Records

Attention: Taxpayers and Voters of St. Mary's County:

In a few weeks you will have the opportunity to vote for the candidates who will govern you for the next four years. Any of those candidates who have held office should be judged by their records.

Article 4 of the Declaration of Rights of the Maryland Constitution says; "That a long continuance in the Executive Department of power or trust is dangerous to liberty. A rotation, therefore, in those departments is one of the best securities of permanent freedom."

We the Republican Central Committee for St. Mary's County want to ask you to give serious consideration to this question: if you hired and paid a man to handle your business and after a period of eight years you found that he had run your business in debt approximately \$140,000.00, would you re-employ him? This is exactly the situation with regard to Messrs. Byron Guy and Leonard Alvey.

You, by your votes, elected them for two terms and then found out last March that they had mismanaged your business to the extent of \$140,000.00. They had to get a special bill passed in Annapolis to enable them to borrow this amount in order to wipe out the debt which they, as hired servants of the taxpayers, had created.

Taxpayers and voters of St. Mary's County, this was your money that was so carelessly handled. Do you want to re-employ them for another four years? You deserve good government and you will get it if you place the good of St. Mary's County above party affiliation and vote for the Republican Candidates for County Commissioners this November 4th.

When these new Commissioners are elected, they pledge to have a complete, impartial audit made of the books. They also pledge to have a Committee of responsible taxpayers, regardless of party affiliation, present to determine whether or not our County funds have been wisely spent, and immediately report the findings to the taxpayers of our County.

Committee for St. Mary's
County

Commissioners Issue Answer to GOP

These are the comments of the County Commissioners on the article which you are publishing from the Republican Central Committee.

There has been an annual impartial audit of the County's books made by Certified Public Accounts, and the annual publication regarding the same has been made, in accordance with the law, since we have been in office.

In regard to the Emergency Loan of \$140,000.00, same has been repaid. During the eight years we have been in office the new Court House has been constructed; the new Health Building has been constructed; schools have been constructed; and many other important public improvements have been made and the Tax Rate for St. Mary's County has remained at \$1.50 per the \$100.00 assessable basis, throughout our administration.
